RE: Preferred Design Consultant

Dear Sir

Mr. Riaan van Zyl from Transmission Consulting Service was committed to various power line design and construction projects for NamPower in the past. From this back ground and reference to previous projects successfully completed in time NamPower once again approve and recommend Mr. van Zyl as the preferred design consultant for the redesign of the power line road crossing project.

Please do not hesitate to contact the undersigned should you require any clarification of the above.

Yours faithfully,

C.L. MEYER
