Sir

TO WHOM IT MAY CONCERN

Riaan van Zyl from Transmission Consulting Services has been involved with Transmission and Distribution projects for NamPower since 2000. He has designed and implemented numerous Overhead Transmission Lines (OHTL) from 66 kV to 400 kV acting as the Transmission Line Design Engineer and on some projects as a Project Manager as well.

Riaan is highly recommended for any transmission line projects.

Yours faithfully

Frank Engelbrecht

Divisional Manager: Transmission Projects
