TO WHOM IT MAY CONCERN

This letter serves to confirm that Riaan van Zyl from Transmission Consulting Services (TCS) was involved with the 66 kV transmission line adjustments to cater for new highway crossings. He was responsible for the engineering design, project management and project implementation and successfully completed these line adjustments.

We will highly recommend Riaan for any future overhead transmission line projects. The project was successfully completed within time and budget. The works standards were of a high quality.

Yours faithfully

Mr. OA Hekandjo

STRATEGIC EXECUTIVE: ELECTRICITY DEPARTMENT
